

FL-CB05

- Flash bracket cable
- For hot shoe

Extension Flash Bracket Cable

The extension flash bracket cable FL-CB05 allows the use of the Olympus external flash units in connection with Olympus digital camera models equipped with a hot shoe. It has a maximum length of 1 metre and can be connected via clip-on hot shoe to the compatible Olympus digital camera. With this extension cable you can use the flash without directly placing it on the camera's hotshoe.
